**Great Rivers Environmental Law Center Included in Best Law Firms 2018
by U.S. News Media Group and Best Lawyers in America®**

November 2, 2017

For the sixth year in a row, Great Rivers Environmental Law Center is included in the U.S. News-Best Lawyers® “*Best Law Firms*,” receiving a Tier One ranking for Environmental Litigation in the 2018 Edition.

“We are honored to be recognized again this year. This distinction reflects the passion and dedication of each of our attorneys,” says Kathleen Henry, President of Great Rivers Environmental Law Center.

This ranking is based on an evaluation process that includes a review of client and lawyer evaluations, peer reviews from attorneys in their field, and additional information provided by law firms as part of the formal submission process. To be eligible for a ranking, a law firm must have at least one lawyer who is included in *Best Lawyers in America* as part of the annual peer review assessment. Great Rivers’ General Counsel Bruce Morrison has received that honor, making Great Rivers eligible to receive inclusion in the *Best Law Firms* rankings.

Achieving a high ranking is a special distinction that signals a unique combination of excellence and breadth of expertise.

Great Rivers is the only nonprofit public interest environmental law firm in Missouri, and provides free and reduced-fee legal services to those working to protect the environment and public health. For more information, visit www.greatriverslaw.org.
